# PHARMA EXCIPIENTS & FORMULATION:

**Meeting the Growing Need for High-Quality Pharmaceutical Excipients through Stringent Standards and Controls**

**The pharmaceutical industry's globalization, coupled with global regulatory requirements, has resulted in a pressing need for a comprehensive standard for excipient quality and control. Our manufacturing facility, which has received FDA approval and is compliant with ISO 9001:2015, produces pharmaceutical excipients of the highest quality.**

**We adhere to the NSF/IPEC/ANSI 363 standard for pharmaceutical excipient GMPs, which provides a comprehensive set of criteria for quality management systems used in the production of pharmaceutical excipients worldwide.**
